A FEW WORDS ABOUT ME

Since December 2018 I have been working for a London based company, creating and supporting their websites as well as doing research, data collection and creating marketing materials for them. In the period 2017-2019 I have also created a few freelance projects as well. You can see some of my existing work through the links provided on my CV. I am passionate about my work and always strive for excellent results. I'm a very fast learner and I welcome any opportunity that's been given to me. I am also very motivated in what I do and I have always been an example for hard work in my previous employments. I am well organised and proactive and a very good team player and I enjoy challenges, they help me stay motivated. In my spare time I enjoy travelling, hiking and camping.
